ROBUST, FUNCTIONAL, ENVIRONMENTALIST AND QUALIFIED PROJECTS

Forev Yapı, which was founded on the knowledge and experience of Nasel Tekstil, one of the leading textile companies in Turkey with more than 25 years of commercial history, aims to design structures that address the production process with its urban context, contribute to the urban culture and offer living spaces integrated with nature.

Forev Yapı has grown rapidly by adding value to the regions where the projects are located, while making hundreds of people homeowners with the projects it has completed in Eyüp, Arnavutköy, Zeytinburnu, Küçükmece and Halkalı regions throughout Istanbul.

With the user-oriented designs of the housing projects, we offer our customers a dynamic life in which safety, comfort, quality, and aesthetics coexist.
